GUTTER GRATINGS
POOL FITTINGS & CLEANERS

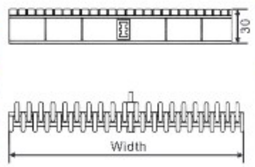

Gutter grating is molded in white UV resistant ABS. Top of grating features an anti-slip finish and it is composed of individual units connecting along a central spine. This design allows for easier installation without the need for cutting also allowing the grating to curve as necessary.

SAFETY CHECK VALVE
POOL FITTINGS & CLEANERS

WL-DZF50A/B

Safety check valve is an essential accessory for circulating pumps. Its main function is to avoid damaging the impeller when pump stops working.

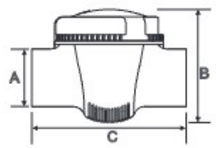

Safety check valve is specially designed for swimming pool and spa and it relies on the flow of the liquid itself to turn on and turn off the seal baffle automatically, then form the directional flow of the liquid. It ensures the directional flow of water from swimming pool and spa and prevents water from backflow.

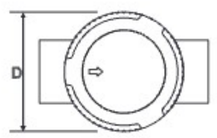

Features:

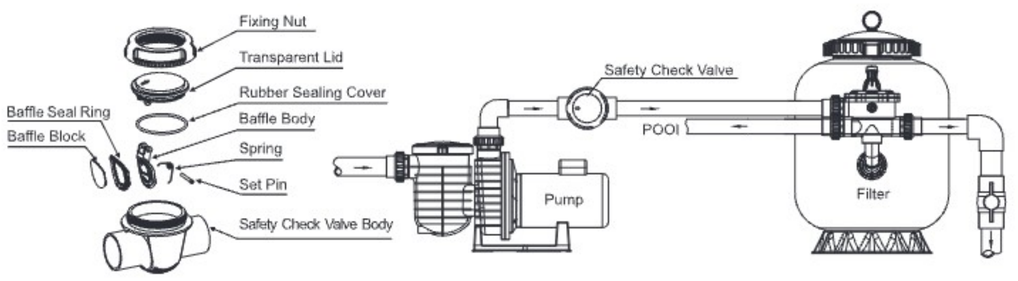

- Transparent lid, convenient to watch flow direction of water.
- Seal baffle and stainless steel spring with numerous tests ensure high performance and reliable quality.
- Being made of high quality engineering plastics, our Safety check valve is in high temperature resistance and corrosion resistance, which can adapt to acidic or alkaline fluid in temperature 5-50℃.
- Safety check valve in metric or imperial is optional, facilitating the installation.

DZF series Safety Check Valve has two models
